TOKYO.

Dear Miss Parlow:-

Referring to our conversation of yesterday evening in regard to your making records for us, I wish to confirm the arrangement as follows:

That you will play for the making of ten double sided records, that is, twenty selections, for an outright fee of ¥300. per double sided record, namely, ¥3000.00 for the ten double sided records. We will submit to you names of selections that we would like to have you play but it is understood that we will mutually agree on this point.

Payment for recording to be made as follows:

¥1500.00 after completion of the first
recording session,
and balance of ¥1500.00 after completion
of the final recording session.

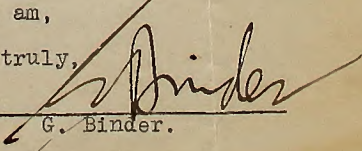

Where it is necessary to re-make a record, that is, there is some mechanical defect to the master, it is understood that you will re-record such particular selection or selections free of charge.

We understand that the cash consideration which you are to receive for this recording is far below your expectations but that you have agreed to the sum stipulated on condition that we lend to your concerts here in Japan our full support. We assure you that in this connection you will not find us lacking. We have already made plans to assist you in every possible way in connection with your concerts and in this work we are conferring with Mr.K.Senow.

We should like very much to have you also confirm this arrangement.

With kindest regards, I am,

Yours very truly,

G. Binder.
